# INTRODUCTORY SECTION

November 30, 2006

Honorable Mayor and Members of the City Council Sandy City

The Comprehensive Annual Financial Report (CAFR) of Sandy City (the City), for the fiscal year ended June 30, 2006 is submitted herewith. Utah State law requires that first class cities "present to the governing body an annual financial report prepared in conformity with Accounting Principles Generally Accepted in the United States (GAAP), as prescribed in the Uniform Accounting Manual for Utah Cities." This report, which fulfills this requirement, presents a comprehensive financial picture covering all funds and financial transactions for the year.

This CAFR has been prepared by the City's Finance Department. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures and supplementary information, rests with the City's management. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the City. All disclosures necessary to enable the reader to gain an understanding of the government's financial activities have been included. Likewise, the "Notes to the Financial Statements" are an integral part of this report and should be read for a more complete understanding of the financial statements and information presented in this report.

Management of the City is also responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the City are protected from loss, theft, or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with GAAP. The City's internal control structure is designed to provide reasonable, rather than absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: 1) the cost of the control should not exceed the benefits likely to be derived and 2) the valuation of costs and benefits requires estimates and judgments by management.

As required by Utah state law, an annual audit has been conducted by independent certified public accountants. The Report of Independent Certified Public Accountants, as prepared by Wisan, Smith, Racker & Prescott, LLP, is included within the Financial Section of this report. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based on the audit, that there was a reasonable basis for rendering an unqualified opinion that the City's financial statements for the fiscal year ended June 30, 2006, are fairly presented in conformity with GAAP.

The City is required to undergo an annual Single Audit in conformity with the provisions of the Single Audit Act

and U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments and Non-Profit Organizations. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. Information related to this Single Audit, including the schedule of federal financial assistance, findings and recommendations, and auditor's reports on the internal control structure and compliance with applicable laws and regulations, are published under separate cover.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). The letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditors.

#### **Profile of the Government**

Sandy City is the fifth largest city in Utah. Located about 13 miles south of Salt Lake City, Sandy has experienced tremendous growth in land area and population during the past thirty years. Annexation of previously unincorporated land has resulted in growth from 6.6 square miles in 1970 to nearly 23 square miles today. Annexations combined with new construction resulted in population growth from 6,438 to 94,000 in that same time period.

In July, Money Magazine named Sandy one of America's Best Places to live as the 23<sup>rd</sup> most livable city out of 745 cities with populations that exceeded 50,000. Criteria being scored included economy, safety, education, ease of living, art and parks space. Sandy's first and second highest categories are park space and education respectively. Sandy City was also ranked the 26<sup>th</sup> safest city out of 371 U.S. cities by Morgan Quitno Press.

Since 1979, the City has operated under the council-mayor form of government. The City Council, comprised of seven elected individuals, is the governing authority for the City. The elected Mayor, with no voting rights on the City Council, has various administrative and veto powers. One of the Mayor's administrative powers is the appointment of the Chief Administrative Officer, Cabinet Officers and various other positions such as the City Treasurer, the City Recorder, and the City Engineer. The City Council establishes City policy, approves the budget, and ratifies the appointment of City Officials. The City Council is authorized to issue bonds, incur short-term debt, levy property taxes, and is not dependent on any other unit of local government.

The City provides the full range of municipal services normally associated with a municipality. In brief, the general governmental functions include police and fire protection, park construction and maintenance, street construction and maintenance, public improvements, engineering, building inspection, planning and zoning, administrative services, recreation services, storm drain system construction and maintenance, and street light system installation and maintenance. The City also operates water, waste collection, and River Oaks Golf Course as enterprise funds. Blended component units, although legally separate entities, are, in substance, part of the primary government's operations and are included as part of the primary government. Accordingly, the Sandy Redevelopment Agency is

reported as a special revenue fund and Alta Canyon Recreation Special Service District is reported as an enterprise fund.

Comprehensive annual budgets are an essential element for the City's financial planning and control. Therefore, budgets are adopted annually (required by Utah state law) by the City Council for all funds except debt service funds used to account for special assessments and expendable trust funds which are subject to compensating controls. Utah state law also requires: 1) a balanced budget for each individual fund; however, Redevelopment Agencies are allowed to incur debt prior to the triggering of the tax increment revenue thus allowing an unbalanced budget, 2) department expenditures to conform with departmental appropriations, and 3) individual fund appropriations to be overspent only in "emergencies" (natural disasters). Once the budgets are approved, the City Council may revise the budgets from time to time after following the required procedures. Budget-to-actual comparisons are provided in this report for each individual fund for which an appropriated annual budget has been adopted. For the general fund and the storm water fund this comparison begins on page 42 as part of the basic financial statements for the governmental funds. For the other governmental funds with appropriated annual budgets, this comparison is presented in the governmental fund subsection of this report, which starts on page 85.

### **Factors Affecting Financial Condition**

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City operates.

Local Economy. With the recession behind us, Utah continues to gain strength and has seen some of the highest growth rates in the state's history. Utah, along with neighboring states of Arizona, Idaho and Nevada, is leading the nation in employment growth rates. With the growth in employment numbers, each of the 11 employment sectors have added jobs, led by gains in professional and business services and construction.

Sandy is experiencing this growth through new construction with more than 100 projects currently in the planning process or beginning the construction stage. New growth in the Civic Corridor includes hotels, office, retail, mixed use and multi-family housing projects. Currently more than 600,000 square feet of office space is under construction or in the planning phase directly surrounding City Hall with more than one million square feet in the conceptual phase. Surrounding areas in Sandy are also experiencing new growth in retail at Quarry Bend which includes retail and housing, Little Cottonwood which has several phases of expansion as well as a new Home Depot underway and new restaurants like Asian Star, Texas Roadhouse and Rumbi Island Grill. ReAL Salt Lake Soccer broke ground on their 20,000 seat stadium in mid-August which will be Phase I of a \$650 million project located at 9400 South and State Street directly across from Jordan Commons and the South Towne Expo Center.

Through assistance from Representative Jim Matheson, a new TRAX stop was added at 9400 South which will help alleviate congested traffic during exposition shows and heavily attended entertainment venues at Jordan Commons. Representative Matheson as well as Senator Hatch and Senator Bennett helped secure millions of dollars in transportation funding to improve major roads on 700 East, 1300 East, and State Street which will make the well traveled roads not only the safest roads in the county but will decrease congestion for commuters.

Because of increasing growth in the commercial areas, Sandy residents enjoy one of the lowest property tax rates in the county with Salt Lake City being the highest with a rate of .004720 which is more than double the average rate of all cities in the county at .002209 and Draper City being the lowest at .001274. Sandy's property tax rate is currently .001514 which is 69% of the average. Property taxes in Sandy have not increased in more than 20 years even though the population in that same time frame has nearly doubled to the current population of 94,000.

Sandy City has seen many exciting and unique projects in recent years as well as having many more on the horizon that will add a whole new level for quality living and shopping experiences for Sandy residents and visitors.

Additional information about economic factors can be found on page 31 of the MD&A.

Long-Term Financial Planning. The City Council approved a balanced budget for the upcoming fiscal year. The approved budget will bring \$4,000,000 in one-time revenue and an additional \$2,600,000 in ongoing revenue to the general fund. Aided by an infusion of many new and diverse residential, commercial, and retail developments, the City is able to use a large amount of ongoing revenue for specific, one-time purposes in fiscal year 2007. Such a commitment provides greater flexibility with City resources in the future and better positions in upcoming operating years.

The fiscal year 2007 budget includes \$1,350,000 for the replacement of Fire Station 32 with a 10,000 square foot facility that will also house a police substation and a community room. In addition, the City has budgeted a new roof at City Hall as well as an architectural assessment and building replacement review of the Parks and Recreation building.

The City will set aside \$1,740,000 of the needed \$2,870,000 for the complete reconstruction of 1300 East. The remaining \$1,130,000 is being funded with federal money. Other needed road projects addressed in the fiscal year 2007 budget include an overlay of 10600 South, a new traffic signal at 9600 Highland Drive, and money to purchase rights-of-way for future City streets.

Reinforcing the City's commitment to open space and trails, resources needed to complete the Urban Fishery, expand parking at Flat Iron Park, enhance trail amenities at Quail Hollow Park, reconstruct parking lots at Bell Canyon Park and Willow Creek Park, and complete a full-service eight-acre park at the Quarry Bend development have been included in the budget. The hiring of one full-time grounds worker and two seasonal grounds workers to partially address the growing parks maintenance needs is also included.

The City expects to contribute \$384,531 to the fund balance of the general fund, increasing the cash reserve fund to 11.5 percent of general fund revenue.

Relevant financial policies. The City takes pride in maintaining its pay-as-you-go strategy along with reasonable long-term financing to keep the debt burden low. Sandy City seeks the most practical and cost-efficient financing available. Following this policy has allowed the City to maintain a "Aa+" bond rating for sales tax revenue bonds and

"AA" for general obligation bonds. For further information on long-term liabilities, please refer to page 30 in Management's Discussion and Analysis and page 65 in the notes to the financial statements.

Major initiatives. As we prepare for the future, City administration is committed to 1) maintain and improve basic core municipal services; 2) maintain integrity of residential neighborhoods and preserve property values; 3) preserve and improve public infrastructure and transportation systems; 4) preserve existing and expand additional retail and clean commercial businesses; 5) develop and improve the City's recreational trails and increase recreational opportunities; 6) develop community arts and facilities; 7) strengthen communications with citizens, businesses, and other institutions; and 8) maintain a highly qualified employee work force. These initiatives are reflected in the fiscal year 2007 budget.

### Awards and Acknowledgments

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2005. This was the nineteenth consecutive year that the City has received this prestigious award. In order to be awarded a Certificate of Achievement, the City must publish an easily readable and efficiently organized CAFR. This report satisfied both Accounting Principles Generally Accepted in the United States of America and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The City also received the GFOA's Distinguished Budget Presentation Award for its annual budget document for fiscal year 2007. In order to qualify for the Distinguished Budget Presentation Award, the government's budget document was judged to be proficient in several categories, including as a policy document, a financial plan, an operations guide, and a communications device. This is the third consecutive year that the City has received this esteemed award.

The preparation of the CAFR on a timely basis was made possible by the dedicated service of the entire staff of the Finance Department. Each member of the department has our sincere appreciation for the contributions made in the preparation of this report. In closing, without the leadership and support of the governing body of Sandy City, preparation of this report would not have been possible.

Respectfully Submitted,

Byron D. Jorgenson,

City Administrator

Arthur D. Hunter,

Finance and Information

Services Director

#### INDEPENDENT AUDITORS' REPORT

Honorable Mayor and Members of the City Council City of Sandy, Utah

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Sandy, Utah (the City), as of and for the year ended June 30, 2006, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Sandy, Utah, as of June 30, 2006, and the respective changes in financial position and cash flows, where applicable, and the respective budgetary comparison for the General Fund and the Storm Water Fund, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

MEMBER
AMERICAN INSTITUTE OF
CERTIFIED PUBLIC ACCOUNTANTS

132 PIERPONT AVENUE, SUITE 250
SALT LAKE CITY, UTAH 84101
FAX (801) 328-2015
(801) 328-2011

MEMBER
UTAH ASSOCIATION OF
CERTIFIED PUBLIC ACCOUNTANTS

In accordance with Government Auditing Standards, we have also issued our report dated November 30, 2006, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

The management's discussion and analysis, and the schedule of roadway system condition and maintenance, on pages 19 through 32 and 79 through 81, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining and individual non-major fund financial statements, budgetary comparison information, and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual non-major fund financial statements and budgetary comparison information have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Wisan Snith Rache & Presett, LLP

Salt Lake City, Utah November 30, 2006

### Management's Discussion and Analysis

As management of Sandy City, we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2006. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which starts on page 7 of this report.

### Financial Highlights

- The assets of the City exceeded its liabilities at the close of fiscal year 2006 by \$470,913,277 (net assets). Of this amount, \$90,850,255 (unrestricted net assets) may be used to meet the government's ongoing obligations to citizens and creditors.
- The government's total net assets increased by \$19,200,072. Approximately 20 percent of this
  increase is attributable to unspent revenues in the water fund that will be used for future capital
  projects. General fund revenues in excess of expenses constitute 28 percent of the total net asset
  increase. Of this excess, \$4,605,069 was transferred to the capital projects fund for use in future
  capital projects.
- As of the close of fiscal year 2006, the City's governmental funds reported combined ending fund balances of \$35,863,368, an increase of \$2,728,200 in comparison with fiscal year 2005. The unreserved portion equals \$30,216,855 and is available for spending at the government's discretion.
- At the end of fiscal year 2006, unreserved fund balance of the general fund was \$4,897,087, or 14
  percent of total general fund expenditures, an increase of \$742,196 over fiscal year 2005.
- The City's total long-term debt decreased \$3,938,037 (5 percent) during fiscal year 2006 as a result
  of regularly scheduled debt payments.

#### Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-wide financial statements: The government-wide financial statements are designed to provide readers with a broad overview of the City's finances in a manner similar to a private-sector business.

The statement of net assets presents information on all of the City's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, highways and streets, storm water, electric utility, economic development, and culture and recreation. The business-type activities of the City include water, waste, River Oaks Golf Course, and Alta Canyon Sports Center.

Although Alta Canyon Sports Center is a legally separate entity from the City (known as the primary government), the Sports Center provides services, which almost exclusively benefit the City. Alta Canyon functions for all practical purposes as a department of the City, and therefore has been included as an integral part of the primary government (see more information about the Sports Center on page 47).

The government-wide financial statements can be found on pages 34-37 of this report.

Fund financial statements: A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

Governmental funds: Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar

information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains thirteen individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the general fund, the debt service fund, the capital projects fund, and the storm water fund, all of which are considered to be major funds. Data from the other nine funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The City adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 38-43 of this report.

Proprietary funds. The City maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for its water utility, waste services, Alta Canyon Sports Center, and River Oaks Golf Course. Internal service funds are an accounting device used to accountate and allocate costs internally among the City's various functions. The City uses internal service funds to account for its fleet of vehicles, information services, risk management, payroll management, and equipment management. Because all of these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the water utility, waste services, Alta Canyon Sports Center, and River Oaks Golf Course, all of which are considered to be major funds of the City. Conversely, internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of *combining* statements elsewhere in this report.

The basic proprietary fund financial statements can be found on pages 44-46 of this report.

**Notes to the financial statements:** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 47-78 of this report.

Other information: In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the modified approach for infrastructure. Required supplementary information begins on page 79 of this report.

The combining statements referred to earlier in connection with nonmajor governmental funds and internal service funds are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be found on pages 84-115 of this report.

#### **Government-wide Financial Analysis**

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of Sandy City, assets exceeded liabilities by \$470,913,277 at the close of fiscal year 2006.

By far the largest portion of the City's net assets (79.5 percent) reflects its investment in capital assets (e.g., land, buildings, machinery, equipment), less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

SANDY CITY Summary of Net Assets June 30, 2006

	Govern	mental		Busine	SS-	type	Total Primary	Government
	2006	2005	_	2006		2005	2006	2005

An additional portion of the City's net assets (1.2 percent) represents resources that are subject to external restrictions on how they may be used, all of which is from governmental activities. The remaining

balance of *unrestricted net assets* (\$90,850,255) may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of fiscal year 2006, the City is able to report positive balances in all three categories of net assets, both for the government as a whole, as well as for its separate governmental and business-type activities. The same situation held true for the prior fiscal year.

Restricted net assets for governmental activities decreased 4.5 percent (\$267,905) during fiscal year 2006. Work on various road projects, such as street reconstruction, accounts for a decrease in restricted net assets of \$502,755. An increase of \$234,850 in net assets is attributable to increases in capital projects to be completed with new impact fee revenues.

The government's net assets increased \$19,200,072 during fiscal year 2006. This growth largely reflects capital asset additions, increased revenue from economic growth, and rate changes.

**Governmental activities:** Governmental activities increased the City's net assets by \$14,802,196, accounting for 77 percent of the total growth in the City's net assets. Key elements of this change are as follows:

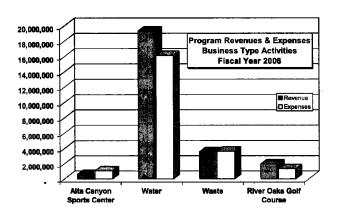

- Sales tax revenue posted higher in fiscal year 2006 over the prior year by \$1,824,192 and \$1,444,709 over budgeted expectations due to economic growth.
- Interest income for fiscal year 2006 came in at \$1,156,651 more than expected and \$950,045 more than fiscal year 2005 due to rising interest rates and economic growth.
- The strong economy also caused construction related revenue to rise above expectations; Impact fee revenue posted higher than expected for parks (\$555,806), trails (\$46,753), fire (\$179,296), police (\$74,066), and storm water (\$30,284); Building permit revenue during fiscal year 2006 was \$706,432 over projections.
- In fiscal year 2006, the Capital Projects Fund made the first (\$624,714) of five annual payments
  to MWDSLS for purchasing rights-of-way through the City. The City plans on constructing an
  extension of Highland Drive along the culinary water pipeline connecting MWDSLS's Little
  Cottonwood water treatment plat with its plant under construction in Draper, Utah. Sandy's share
  of the total cost of the purchases is \$2,515,267.
- During fiscal year 2006 the City purchased land to construct a storm drain retention pond (\$1,200,000) and a new eight-acre park (\$1,747,264.17) in the Quarry Bend area. The City received \$1,300,000 from the area developer for the park development and added \$1,149,587 in streets infrastructure.
- The City retired \$4,960,703 in debt for governmental activities. More detailed information can be found in note 12, Long-term Obligations, beginning on page 65 of the notes to the financial statements.

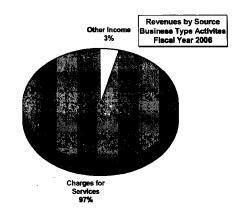

**Business-type activities:** Business-type activities increased the City's net assets by \$4,397,876, accounting for 23 percent of the total growth in the government's net assets. Key elements of the change in business-type net assets are as follows:

- On May 1, 2001, the City entered into an interlocal agreement with Salt Lake City and Metropolitan Water District of Salt Lake and Sandy (MWDSLS). Under this agreement, the City is obligated to pay an estimated total of \$126,310,000 over 30 years to the MWDSLS for capital improvements to be conducted by MWDSLS. The third annual assessment of \$4,210,322 was paid in fiscal year 2006. An assessment in the same amount will be paid in fiscal year 2007.
- Charges for services in the Water Fund exceeded expectations by \$965,189 as a result of growth from new construction, increased consumption by existing customers, and rate increases.
- During fiscal year 2006, the City completed \$2,041,428 in water main additions and \$7,859,544 in well additions. \$6,369,006 of the well additions is attributable to the completion of the Southeast Quadrant wells; of which \$3,409,725 was transferred to well additions from work in process. The Water Fund also completed fluoride capital improvements at a cost of \$1,122,017 that was capitalized as well additions.
- River Oaks Golf Course contributed \$788,830 to the increase in business-type activities net assets as a result of selling 3.17 acres of land to the General Fund for \$787,563, which will then be sold to a private party by the General Fund.
- Because its equity in the Trans-Jordan Cities joint venture decreased from 34.27% to 33.2% (\$104,601), the Waste Fund caused \$50,807 decrease in business-type net assets.
- In fiscal year 2006, Alta Canyon Sports Center caused a \$150,804 decrease in business-type net assets. Membership fees posted \$27,380 less than expected and cell tower lease revenue was \$13,476 less than anticipated. The Sports Center also incurred \$36,144 in higher personnel and supply costs over the prior fiscal year. Additionally, it was necessary to replace the Sports Center roof at a cost of \$19,258. Depreciation expense was \$132,859 for fiscal year 2005. For more information regarding the City's management of Alta Canyon, see note 1 on page 47 of the notes to the financial statements.

### Financial Analysis of the Government's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental funds.** The focus of Sandy City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of fiscal year 2006, the City's governmental funds reported combined ending fund balances of \$35,863,368, an increase of \$2,728,200 in comparison with fiscal year 2005. Of this amount, \$30,216,855 (85 percent) is unreserved, and is therefore available for spending at the government's discretion. The remainder of the fund balance is *reserved* to indicate that it is not available for new spending because it has already been committed to pay debt service (\$1,420,600) or to pay for capital projects, including road projects (\$4,225,913).

The general fund is the chief operating fund of the City. At the end of fiscal year 2006, fund balance of the general fund was \$4,897,087, all of which is unreserved. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents 14 percent of the total general fund expenditures.

The fund balance of the City's general fund increased \$742,196. The key factor causing this increase is the economic growth the City is experiencing resulting in revenues in excess of expectation in sales and use tax (\$1,144,709), franchise taxes (\$794,553), licenses and permits (\$831,342), and state road allotment (\$667,183).

The storm water fund experienced a decrease in fund balance of \$584,529 for fiscal year 2006 resulting in a total fund balance of \$6,312,410. The primary cause was a transfer of \$928,928 to debt service for the 2002 Sales Tax Revenue bond payment; the proceeds from this bond were used to acquire, construct, and equip storm drain improvements.

The debt service fund has a total fund balance of \$2,930,726, of which \$1,420,600 is reserved for the payment of debt service. The net fund balance increased 4 percent (\$95,587) during fiscal year 2006. Key factors in this increase are as follows:

- Building rental revenue and police impact fees collected on new construction to pay debt service on 2003 Sales Tax Revenue Bond, contributed \$27,668 and \$12,022 respectively.
- Innkeeper fees dedicated for payment of the 2004 Sales Tax Revenue and Refunding Bonds contributed \$37,451.
- Interest income contributed to the remaining increase.

Fund balance in the capital projects fund increased \$2,656,367 during fiscal year 2006 leaving an ending fund balance of \$17,102,657. \$4,225,913 of ending fund balance is restricted for specific capital projects, including roads. The increase in fund balance resulted from planned projects that are yet to be completed.

**Proprietary funds.** The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net assets of the City's proprietary funds amounted to \$46,834,939 for the water fund, \$5,747,655 for the waste fund, and \$516,340 for River Oaks Golf Course.

While total net assets of Alta Canyon Sports Center are \$1,309,449, unrestricted net assets are negative \$(22,281). The reserved portion of net assets that is invested in capital assets, net of related debt is \$1,331,730. The portion of net assets invested in capital assets, net of related debt is shown separately from unrestricted net assets because capital assets cannot be used to pay related debt or other expenses as they are being used in the course of business.

Other factors concerning the finances of these funds have already been addressed in the discussion of the City's business-type activities.

### **General Fund Budgetary Highlights**

Fiscal year 2006 showed a \$30,000 increase between the original budget and the final amended budget in the general fund. The general fund contingency transferred \$30,000 to the capital projects fund to help fund construction of a storage facility.

There were some minor budget changes within the general fund as well. These changes include \$45,086 from the general fund contingency for police (\$3,234), parks (\$750), and public works (\$750) overtime necessary during the Scarecrow Festival; a \$29,552 increase in appropriations for selective enforcement by our police department; an \$800 donation to the American Legion for the Sub-for-Santa program; and equipment purchases in the amount of \$10,000. The general contingency also funded \$31,648 of a \$35,000 payment to the Living Planet Aquarium. Money set aside for community projects funded the remaining \$3,352.

### **Capital Asset and Debt Administration**

Capital assets. The City's investment in capital assets for its governmental and business-type activities as of June 30, 2006 amounts to land, improvements other than buildings, machinery and equipment, autos and trucks, infrastructure (roadway system), street light system, and storm drain system. The net increase in the City's investment in capital assets for fiscal year 2006 was \$8,445,951 (a 2.2 percent increase for governmental activities and a less than 0.28 percent increase for business-type activities). The primary reason for the governmental activities increase is the purchase of land to be used for the gravel pit detention pond and eight acre park (\$2,103,412), the 20<sup>th</sup> East corridor acquisitions for street improvements (\$2,516,267) and street infrastructure (\$1,149,587).

Additional major capital asset events during fiscal year 2006 included the following:

- The Public Utilities department completed the southeast quadrant wells at a total cost of \$6,369,006, which was substantially capitalized in prior years as construction in process.
- The Public Utilities department also completed well fluoridation capital improvements at a total cost of \$1,122,017 and spent \$361,521 for other well improvements.
- The City capitalized \$2,041,428 for water main replacements.
- The City improved the Justice Center building and enhanced security at a cost of \$713,169.

The City did not record its roadway system infrastructure as part of the general fixed asset account group before July 1, 2002, but did record storm water and street light systems infrastructure in the appropriate funds at historical cost less depreciation. With the implementation of GASB Statement No. 34, Sandy City implemented the modified approach to account for roadway system infrastructure. Because many infrastructure assets may reasonably be expected to continue to function indefinitely if they are adequately preserved and maintained, GAAP allow a government to forego reporting depreciation in connection with networks or subsystems of infrastructure assets. A government choosing this option must commit to maintain those particular infrastructure assets at a predetermined condition level of its own choosing and must establish an asset management system that is adequate for that purpose. Sandy City has established a policy to maintain at least 80 percent of its roadway system at a good or better condition and have no more than 10 percent in a substandard condition. For the fiscal year ending June 30, 2006, the City has exceeded this goal for each of the three subsystems of the roadway network (arterials, collectors, and secondary) with 88.1 percent of the overall roadway network being in good or better condition and only 0.7 percent in substandard condition. This is an insignificant decrease from those in good or better condition at the end of fiscal year 2005 (88.5 percent) and an insignificant increase from those in substandard condition for the fiscal year ending June 30, 2005 (0.6 percent). The difference between the City's actual expenditures (\$4,834,710) and its predicted needs (\$5,488,754) to maintain the roadway system at these levels caused a less than 0.1 percent decrease in the overall system condition levels, but did not cause the levels to fall beneath the City's goal. More detailed information on this subject can be found in note 1 on page 52 of the notes to the financial statements and in the Required Supplementary Information section on page 81.

Additional information on the City's capital assets can be found in note 11 of the notes to the financial statements on pages 62-64 of this report.

Long-term debt. At the end of fiscal year 2006, the City had total long-term obligations outstanding of \$72,969,744. Of this amount, \$3,650,000 comprises debt backed by the full faith and credit of the government and \$5,363,000 is special assessment debt for which the government is liable in the event of default by the property owners subject to the assessment. The remainder of the City's bonded debt (\$44,055,000) represents bonds secured solely by specified revenue sources (i.e. revenue bonds). The City's long-term obligations outstanding also include notes payable, long-term contracts payable, capital leases, and compensated absences totaling \$19,901,744.

Total outstanding debt	\$ 45,932,624	\$ 48,865,681	\$ 27,037,120	\$ 28,042,100	\$ 72,969,744	\$76,907,781

The City's total long-term debt decreased \$3,938,037 (5.1 percent) during fiscal year 2006. Significant events that contributed to this change are:

- The City retired \$6,301,640 of debt with regularly scheduled payments.
- On September 13, 2005, the City issued \$3,650,000 in general obligation refunding bonds at 3.6 to 5.5 percent to refund the remaining \$3,670,000 of outstanding 1995 general obligation refunding bonds and to pay certain costs of issuance. Refunding 1995 bonds is expected to result in a decrease of \$215,029 in future debt service payments.
- The City incurred a contract payable in the amount of \$2,516,267, payable in five equal payments, plus 5 percent annual interest for the property rights-of-way purchased by MWDSLS on the City's behalf to complete the future 20<sup>th</sup> East corridor. The first payment (\$503,253 principal plus \$121,461) was paid in December 2005.

The City maintains a "AA" rating from Standard and Poor's for its sales tax revenue bonds and its general obligation bond because of the City's strong historical and projected unrestricted financial reserves; a very low debt level that is not expected to grow substantially; and a stable and affluent residential community that fully participated in the Salt Lake city metropolitan area. Standard and Poor's has rated the water revenue and refunding bonds "AA-".

Utah state statute limits the amount of general obligation debt a governmental entity may issue to 8 percent of the "reasonable fair cash value" of property. Of this percentage, a maximum of 4 percent may be used for general purposes. The remaining 4 percent and any unused portion of the 4 percent available for general purposes up to the maximum 8 percent may be utilized for water and/or sewer purposes. The current debt limitation for the City's general-purpose debt is \$293,964,134 and \$587,928,269 for the City as a whole. This limitation is significantly in excess of the City's outstanding general obligation debt (\$3,650,000).

Additional information on the City's long-term debt can be found in note 12 on pages 65-71 of this report.

### Economic Factors and Next Year's Budgets and Rates

The following factors were considered in preparing the City's budget for fiscal year 2007:

- The City continues to experience healthy growth aided by an infusion of many new and diverse residential, commercial, and retail developments.
- The unemployment rate for the state of Utah is 2.5 percent at June 30, 2006, the lowest in Utah's history. Down from 4.6 a year ago, many sectors are experiencing labor shortages with many workers vying for top-paying jobs
- Sandy City continues to attract and maintain its commercial tax base through incentive strategies,
   legislative initiatives, and continued support from the existing business community.

As general fund balance increased \$792,146 during fiscal year 2006, the City expects to contribute \$384,531 during fiscal year 2007 to soften unanticipated needs and providing additional financial security and strength to the City as a whole. This will increase cash reserves to 11.5 percent of general fund revenue.

While the financial health of Alta Canyon Recreation District (Sports Center) has stabilized since the City assumed management of the facility in fiscal year 2003, it is apparent that it will be difficult to maintain long term fiscal health. Therefore, the Alta Canyon Board recommended a 20 percent property tax increase, which was approved by the City Council after the "truth in taxation hearing", required by state law. The increase will generate nearly \$58,000 in additional revenue at an annual cost of \$6.77 to the owner of a \$300,000 home.

In keeping with the master plan, the fiscal year 2007 budget includes the recommended annual 6.5 percent increase in order to meet escalating demand on the City's culinary water system. This is the sixth year in a ten-year schedule of annual increases. Additionally, the refundable equipment deposit for hydrant use increased \$50 to \$800 to cover the increased cost of new meters.

Monthly waste collection fees increased \$0.25 per unit to compensate for the consumer price index adjustment in our contract with Waste Management.

Adjustments were made to some development fees including planning and sign permit fees to cover the cost of providing the services.

Some park reservation fees, recreation program fees, and cemetery fees will modestly increase based on rising cost for facilities, wages, utilities, and supplies. Additionally, amphitheater season pass prices will see a \$5.00 per seat increase in fiscal year 2007 and gradual increases thereafter to bring ticket prices more in line with market levels and to allow amphitheater revenue to better cover the cost of presenting the shows.

### **Requests for Information**

This financial report is designed to provide a general overview of Sandy City's finances for everyone with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Sandy City Finance Department, 10000 Centennial Parkway, Sandy, Utah 84070.

# **SANDY CITY**

Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Assets

June 30, 2006

# Amounts Reported for Governmental Activities in the Statement of Net Assets are Different Because:

Total Fund Balances for Governmental Funds (page 38)		\$	35,863,368
Capital Assets used in governmental activities are not financial resources and			
therefore are not reported in the funds. Those assets consist of:			•
Land	195,214,053		
Buildings and Systems	49,266,216		
Improvements Other Than Buildings	9,246,571		
Vehicles	4,468		
Machinery and Equipment	733,108		
Infrastructure	117,316,034		
Construction in Progress	2,509,191		
Total Capital Assets			374,289,641
Some of the City's revenues will be collected after year-end, but are not available			
soon enough to pay for the current period's expenditures, and therefore are			
reported as receivables.			617,013
A portion of the excess revenue collected by the internal service funds must be			
returned to the business-type activities.			(514,167)
Internal services funds are used by the City to charge the costs of the fleet			
operations, information services, insurance, risk management, equipment and			
employee benefits. The assets and liabilities of the internal service funds are			
included in governmental activities in the statement of net assets.			14,65 <b>7,6</b> 16
Long-term liabilities applicable to the City's governmental activities are not due			
and payable in the current period and accordingly are not reported as fund			
liabilities. Interest on long-term debt is not accrued in governmental funds, but			
rather as an expenditure when due. All liabilities - both current and long-term			
are reported in the statement of net assets.			
Accrued Interest Payable	(454,809)		
Unamortized Bond Issuance Costs	539,018		
Bonds, Notes and Leases Payable - Current	(4,342,253)		
Bonds, Notes and Leases Payable - Noncurrent	(39,143,760)		
Compensated Absences - Noncurrent	(923,270)	_	
		_	(44,325,074)
Net Assets of Governmental Activities (page 35)		_\$	380,588,397

# **SANDY CITY**

# Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended June 30, 2006

mounts Reported for Governmental Activities in the Continuous		
Net Change in Fund Balances - Total Governmental (page 40)	\$	2,72 <b>8,2</b> 00
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation		
expense. This is the amount by which capital outlays exceeded depreciation in the current period.		6,11 <b>5,5</b> 45
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		(12,805)
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to		
governmental funds, while the repayment of the principal of long-term debt consumes the current		
financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and		
similar items when debt is first issued, whereas these amounts are deferred and amortized in		
the statement of activities. This amount is the net effect of these differences in the treatment of		
long-term debt and related items.		5,41 <b>9,1</b> 94
Some expenses reported in the statement of activities do not require the use of current financial		
resources and, therefore, are not reported as expenditures in governmental funds.		(13,276)
Internal service funds are used by the City to charge the costs of various activities to individual		
funds. A portion of the internal service funds net revenues is reported with governmental		
activities.		565,338
Change in Net Assets of Governmental Activities (page 37)	<u>\$</u>	14,802,196

# Note 1 - Summary of Significant Accounting Policies

# **Reporting Entity**

The City operates under the council-mayor optional form of government. The City Council, comprised of seven elected individuals, is the governing authority for the City. The elected Mayor, with no voting rights on the City Council, has various administrative and veto powers. The City Council establishes City policy, approves the budget, and ratifies the appointment of the City Officials. The City Council is authorized to issue bonds, incur short-term debt, levy property taxes, and is not dependent on any other unit of local government.

As required by Accounting Principles Generally Accepted in the United States of America, these financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the government's operations. Therefore, data from these units are combined with data of the primary government. Each blended unit has a June 30 year end.

# **Blended Component Unit**

The Sandy Redevelopment Agency (the Agency) was legally created as authorized by the Utah Neighborhood Development Act. The City Council is designated by ordinance as the governing body of the Agency. Therefore, the Agency is part of the City's reporting entity because the City has accountability for all significant fiscal and operating matters. The agency is reported as a Nonmajor Governmental Fund.

The Alta Canyon Recreation Special Service District (the District) was legally created as authorized by the Utah Special Service District Act. The District is within the boundaries of the City and services the northeast quadrant (approximately one-fourth) of the City. The District's Advisory Board is comprised of seven elected individuals. The Advisory Board establishes District policy, appoints the District officials, advises the City with respect to collection and disbursement of funds, and is responsible for funding deficits. The District also has the following powers: to sue and be sued, eminent domain, to enter into contracts, and to acquire and construct facilities. Of equal importance, no tax may be levied and no bonds shall be issued unless authorized by a majority of the qualified voters of the District.

The City Council approves the District's budget, property tax rate, issuance of any long-term debt, and can, at its discretion, dissolve the District. The District provides services which almost exclusively benefit the City. As of January 1, 2003, the District requested the City to take over the management of its daily operations. The District is reported as a blended component unit in the Enterprise Section of the financial statements.

#### Investment in Joint Venture

The City is a partner with neighboring cities in a joint venture known as Trans-Jordan Cities. The purpose of this joint venture is to provide solid waste management and disposal services. Investment in this joint venture is accounted for using the equity method (see note 9).

# **Related Organizations**

The City also has activities with Metropolitan Water District of Salt Lake and Sandy (MWDSLS). City officials appoint members to the board of directors, but the City's accountability does not extend beyond making the appointments.

#### **Government-wide and Fund Financial Statements**

The government-wide financial statements (the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, interfund activity has been removed from these statements. Governmental activities, which are largely supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on charges for services for support.

The statement of activities demonstrates the degree to which the direct expenses for a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported as general revenues.

Separate financial statements are provided for the Governmental Funds, Proprietary Funds, and Internal Service Funds. Major individual Governmental Funds and major individual Enterprise Funds are reported as separate columns in the basic financial statements.

#### Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Basis of accounting refers to when revenues or expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The accounting and reporting treatment applied to a fund is determined by its measurement focus. The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. All Governmental Fund financial statements are accounted for using the current financial resources measurement focus and the modified accrual basis of accounting. This means that only current assets and current liabilities are generally included on their balance sheets. Governmental Funds operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets.

All Governmental Fund financial statements are maintained and reported using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when they become measurable and available as net current assets. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period, generally

60 days. Principal revenue sources susceptible to accrual include property taxes, sales taxes, franchise taxes, special assessments, and interest on investments. Furthermore, expenditures are recorded when fund liabilities are incurred.

The Enterprise and Internal Service Fund financial statements are reported using the accrual basis of accounting. These funds are accounted for on a cost of services or "economic resources" measurement focus. This means that all assets and all liabilities (whether current or non-current) associated with their activity are included on their balance sheets. The City applies all applicable Governmental Accounting Standards Board (GASB) pronouncements to proprietary funds. Pronouncements of the Financial Accounting Standards Board (FASB) are applied if issued on or before November 30,1989 and do not conflict with GASB pronouncements.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues for the City's enterprise and internal service funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

# Implementation of New GASB Pronouncements

In fiscal year 2006, the City implemented GASB Statement No. 44, *Economic Condition Reporting: The Statistical Section*. The statistical section has been prepared in accordance with this statement and can be found beginning on page 128 of this report.

#### **Description of Funds**

The City reports the following major governmental funds:

The General Fund is the government's primary operating fund. It accounts for the normal activities of the City (police, fire, public works, parks, community development, general government, etc.). These activities are funded principally by property taxes, sales and use taxes, franchise taxes, licenses, and permits.

The Storm Water Fund accounts for the City's revenues and capital expenditures associated with drainage for storm water runoff.

The **Debt Service Funds** are used to account for the accumulation of resources for payment of general long-term debt principal and interest and special assessment levies when the City is obligated in some manner for the payment.

The Capital Projects Fund accounts for the resources used to acquire, construct, and improve major capital facilities, other than those financed by Proprietary Funds. Capital Projects funds allow the City to compile project cost data and demonstrate that legal or contractual requirements, regarding the use of the

resources, are fully satisfied. The principal source of funding is contributions from developers restricted for capital construction, operating transfers from the General Fund, grants, and bonding. All funds received for a particular purpose are restricted and used specifically for that purpose.

The City reports the following major Proprietary Funds:

The Alta Canyon Sports Center Fund accounts for the activities created by the Alta Canyon Recreation Special Service District.

The Water Fund is used to account for the operations of the City's water utility.

The Waste Fund accounts for waste collection services provided by an independent contractor.

The Golf Fund is used to account for the City's golf course.

Additionally, the City reports the following fund types:

The Internal Service Funds account for the financing of goods or services provided by one department or agency to other departments or agencies of the City on a cost reimbursement basis. The Internal Service Funds include the Fleet Fund, the Information Services Fund, the Risk Management Fund, the Equipment Management Fund, and the Payroll Management Fund.

#### **Budget Operation**

The City operates within the budget requirements as specified by Utah State law. The financial reports reflect the following budget standards:

- 1. For the fiscal year beginning July 1, the budget officer prepares a tentative budget which is presented to the City Council on or before the first regularly scheduled meeting in May.
- 2. By resolution, the City Council legally adopts the final budget on or before June 22, after appropriate public hearings have been held. However, if there is a change to the certified tax rate, the final budget can be adopted as late as August 17.
- 3. Once adopted, the budget can be amended by subsequent City Council action. Reductions in or reallocations of departmental appropriations can be approved by the City Council upon recommendation of the Budget Officer, but increased appropriations require a public hearing prior to amending the budget. Transfers of unexpended appropriations from one expenditure account to another in the same department can be made with the approval of the Budget Officer.
- 4. Interim adjustments in estimated revenue and departmental appropriations during the fiscal year 2006 have been included in the final budget approved by the City Council, as presented in the financial statements. These amendments were not material in relation to the original appropriations.

- 5. As determined by Utah State law, the level for which expenditures may not legally exceed appropriations is the departmental budget within a given fund.
- 6. Budgets for the General, Special Revenue, Debt Service (General Purposes Debt Service Fund only), and Capital Projects Funds are adopted on a basis consistent with Accounting Principles Generally Accepted in the United States of America (GAAP). Special Assessment Funds are grouped with Debt Service Funds. Operating and capital budgets are required by Utah State law for Proprietary Fund types, although such budgets are not required to be presented in the financial statements. In addition, budgets for Special Assessment Funds are not required by Utah State law.
- 7. All unexpended appropriations lapse at the end of the budget year. However, unexpended Capital Projects Fund appropriations may be reappropriated by a resolution of the City Council without holding public hearings.

#### **Encumbrances**

Encumbrance accounting is not employed by the City.

#### Investments

Investments in interest earning deposits are stated at cost plus or minus unamortized premiums or discounts which approximates fair value.

#### Inventory

The inventories are stated at the lower of cost, determined on the first-in first-out basis, or market.

#### **Deferred Charges**

Deferred charges represent issuance costs on bonds which are amortized over the life of the issue using the bonds outstanding or straight-line method, which approximates the interest method.

#### **Interfund Transactions**

In the normal course of its operations, the City has various transactions between funds. Various City funds provide a number of services such as administrative, fleet operations, information services, insurance and risk management, etc. to other City funds. Charges are treated as revenues in the fund providing the service and as operating expenses in the fund receiving the service. Non-recurring and non-routine transfers are accounted for as changes in fund balance. Other transfers are recognized as transfers in and out, respectively, by the funds involved. Short-term payables are shown as due to/from other funds. Long-term payables are shown as advances to/from other funds.

# Other Depreciable Property

Other depreciable property, including autos, trucks, machinery and equipment, and office furniture and equipment, is stated at cost. Depreciation has been provided on a straight-line method over estimated useful lives.

#### Water Rights

Water stock, rights, and capacity are stated at cost.

#### Capital Assets

Capital Assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets with an individual cost of more than \$7,500 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost when actual historical cost is not available. Donated capital assets are valued at their estimated fair market value on the date donated. Depreciation on capital assets is computed using the straight-line method over the following estimated useful lives:

25	years
25	years
33	уеагѕ
20-40	years
8	years
5-10	years
<b>5</b> -15	years
5-10	years

40	years
30	years
25	years
	25 33 20-40 8 5-10 5-15 5-10 30-50 40

#### **Modified Approach**

With the implementation of GASB Statement No. 34, Sandy City began capitalizing roadway system infrastructure in fiscal year 2003. The City elected to follow the modified approach to account for this infrastructure. The City has made a commitment to preserve and maintain the roadway system of infrastructure assets at a condition level determined by the City. The City's Public Works department is responsible for determining the appropriate condition level at which the roadway system is to be maintained. No depreciation expense is reported for the roadway system after July 1, 2002; however, the estimated historical cost of roadway system infrastructure up to July 1, 2002 was recorded in total along with corresponding accumulated depreciation. Amounts capitalized in connection with improvements that lengthen the life of the roadway system are not reported unless the improvements also increase its service potential. The City maintains an inventory of the roadway system and performs periodic condition assessments to establish that the predetermined condition level is being maintained. Annual estimates are made by the City of the amounts that must be expended to preserve and maintain the roadway system at the predetermined condition levels.

#### **Contributions**

Certain proprietary fund types receive contributions for aid in construction from various sources. With the July 1, 2000 adoption of Statement of Governmental Accounting Standards (SGAS) No. 33, these contributions that were formerly credited directly to contributed capital accounts are now reflected as non-operating revenue. With the July 1, 2001 adoption of SGAS No. 34, amounts that were contributed in prior years and were shown as contributed capital at June 30, 2002, have been reclassified as beginning net assets.

#### **Capital Leases**

The City has acquired certain assets under leases which are required by Accounting Principles Generally Accepted in the United States of America to be accounted for as capital leases. A capital lease is one which results in the lessee (the City) obtaining financing for the purchase of the leased asset. The present values of the lease payments at inception of the leases and the corresponding assets are recorded. Governmental fund capital lease transactions are accounted for in the governmental activities portion of the government-wide statements, while those of the proprietary funds are accounted for in their respective funds. The liability is reduced each year by the portion of lease payments representing principal, not interest. The cost of leased assets is amortized over the life of the assets and the amortization expense is included with depreciation expense.

#### **Utility Revenue**

Throughout the year, utility revenues in the Water, Electric Utilities, and Storm Water Utilities funds are recorded when billed. At year end, the fund records, as unbilled receivables and revenue, an amount which approximates revenue from the last meter reading or billing date at fiscal year end.

#### **Deferred Revenue**

Deferred property tax revenue as of June 30, 2006 consists of property taxes levied for fiscal year 2005-2006 and collected in advance or recorded as a receivable. Deferred special assessment revenue as of June 30, 2006 consists of special assessments levied but not collected or available to pay liabilities of the current period.

#### **Total Columns**

The total columns shown on the accompanying fund financial statements are mathematical totals only and do not eliminate inter-fund transactions or include other entries required to present consolidated financial statements. The government-wide financial statements do, however, eliminate most inter-fund transactions and the double counting of revenues and expenses. They are therefore much closer to the consolidated financial statements presented in private sector accounting.

### Note 2 - Reconciliation of Government-Wide and Fund Financial Statements

# Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-Wide Statement of Net Assets

The governmental fund balance sheet includes a reconciliation between fund balance - total governmental funds and net assets - governmental activities as reported in the government-wide statement of net assets. One element of that reconciliation explains that some of the City's revenues will be collected after year-end, but are not available soon enough to pay for the current period's expenditures, and are therefore reported as receivables. The \$617,013 in receivables consists of \$331,771 of delinquent property taxes and \$285,242 of justice court receivables.

# Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances - total governmental funds and changes in net assets of governmental activities as reported in the governmental-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The \$6,115,545 difference consists of \$9,575,571 of capital outlays, \$(901,101) asset deletions, and \$(2,558,925) of depreciation expense.

Another element of that reconciliation states that "The issuance of long term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance cost, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities." The \$5,419,194 difference consists of:

Principal Repayments	<b>\$</b> 9, <b>098</b> ,25 <b>3</b>
Debt issued or incurred:	
General Obligation Refunding Bonds	(3,650,000)
Issuance Cost (net of premiums)	(29,059)
Total Difference Related to the Issuance and Repayment of Debt	\$ 5,419,194

#### **Note 3 - Property Taxes**

The property tax revenue of Sandy City is collected and distributed by the Salt Lake County Treasurer as an agent for the City. Utah State laws establish the process by which taxes are levied and collected. The property tax calendar is as follows:

1. By March 1, the City notifies the County Commission to establish a proposed date, time, and place for a tax rate adoption hearing.

- 2. By March 31, the County Treasurer settles property taxes charged and collected for the previous year.
- 3. By June 8, the County Auditor sends valuation, certified tax rate, and levy worksheet forms to the City.
- 4. Before June 22, the City adopts a proposed tax rate and certifies the tax rate with the County Auditor.
- 5. Before July 22 (if the City adopts a tax rate higher than the certified tax rate), the County Auditor mails a notice of intent to exceed the certified tax rate to property owners. This notice is normally combined with the tax notice.
- 6. By August 17, the City adopts the final tax rate and certifies the tax rate with the County Auditor.
- 7. Between August 8 and August 22, taxpayers may petition the County Board of Equalization for an adjustment in the taxable value of the real property.
- 8. By November 1, the County Auditor approves changes in taxable value of the real property and the County Treasurer mails tax notices with a due date of November 30. Payments made after November 30 are considered delinquent and are subject to a penalty.
- 9. Unless the delinquent taxes and penalties are paid before January 15, a lien is attached to the real property, and the amount of taxes and penalties bear interest from January 1 until paid. If after five years, delinquent taxes have not been paid, the County sells the property at a tax sale.

With the July 1, 2000 adoption of Statement of Governmental Accounting Standards (SGAS) No. 33, more fully described below, Sandy City changed its method of accounting for property taxes. SGAS No. 33, Accounting and Financial Reporting for Nonexchange Transactions, defines a nonexchange transaction as one in which "a government either gives value to another party without directly receiving equal value in exchange or receives value from another party without directly giving equal value in exchange." For property taxes, at January 1 of each year (the assessment date), the City has the legal right to collect the taxes has recorded a receivable and a corresponding deferred revenue for the assessed amount of those property taxes as of January 1, 2006. Most of the tax will not be received until the following fiscal year.

# Note 4 - Cash and Cash Equivalents

Cash equivalents are defined as short-term, highly liquid investments that are both readily convertible to known amounts of cash and so near their maturity that they present insignificant risk of changes in value because of changes in interest rates. Investments with maturities of three months or less when purchased meet this definition.

Detailed accounting records are maintained for each individual fund; however, to provide the maximum amount of interest earnings on all funds of the City, all cash is pooled for investment purposes.

The City follows the requirements of the Utah Money Management Act (*Utah Code*, Section 51, Chapter 7) in handling its depository and temporary investment transactions. This law requires the depositing of City funds in a "qualified depository". The Act defines a "qualified depository" as any financial institution whose deposits are insured by an agency of the Federal government and which has been certified by the Commissioner of Financial Institutions as meeting the requirements as defined in Rule 11 of the Utah Money Management Act. Rule 11 establishes the formula for determining the amount of public funds which a qualified depository may hold in order to minimize risk of loss and defines capital requirements which an institution must

maintain to be eligible to accept public funds. The Money Management Act also defines the types of securities allowed as appropriate temporary investments for the City and the conditions for making investment transactions. Investment transactions are to be conducted through qualified depositories or primary reporting dealers.

### **Custodial Credit Risk**

Custodial credit risk for deposits is the risk that in the event of a bank failure, the City's deposits may not be recovered. The City's deposits are insured up to \$100,000 per account by the Federal Deposit Insurance Corporation (FDIC). Deposits above \$100,000 are exposed to credit risk. The bank balance of the City's deposits totaled \$2,380,098, with a carrying value of \$739,985. Of this amount, \$100,000 was insured and the remaining \$2,280,098 was uninsured and uncollateralized. The City has no formal policy regarding deposit credit risk.

A summary of restricted and unrestricted cash and cash equivalents at June 30, 2006 is as follows:

	18	sh and Cash quivalents
Unrestricted	\$	55,842,237
Restricted		7,350,382
Total	\$	63,192,619
Deposits	\$	739,985
	\$	739,985 62,452,634

## Note 5 - Investments

The City's investment policies are governed by State statutes. City funds are invested only in the following: (1) negotiable or nonnegotiable deposits of qualified depositories; (2) repurchase agreements with qualified depositories or primary reporting dealers, acting as principal for securities of the United States Treasury or other authorized investments, only if these securities are delivered to the custody of the City Treasurer or the City's safekeeping bank or are conducted with a qualified depository; (3) commercial paper which is rated P-1 by Moody's Investor Services or A-1 by Standard and Poor's Inc., having a remaining term to maturity of 270 days or less; (4) bankers' acceptances that are eligible for discount at a federal reserve bank and which have a remaining term to maturity of 270 days or less; (5) negotiable interest bearing deposits of \$100,000 or more which have a remaining term to maturity of 365 days or less; (6) obligations of the United States Treasury including United States Treasury Bills, United States Treasury Notes, and United States Treasury Bonds; (7) obligations issued or fully guaranteed as to principal and interest by the following agencies

or instrumentalities of the United States in which a market is made by a primary reporting government securities dealer: Federal Home Loan Banks, Federal Farms Credit Banks, Federal National Mortgage Association, Federal Agricultural Mortgage Corporation, Federal Home Loan Mortgage Corporation, Tennessee Valley Authority, or Student Loan Marketing Association; (8) the Utah State Treasurer's Investment Fund; and (9) fixed and variable rate corporate obligations that meet criteria under the Money Management Act.

The City invests in the Public Treasurer's Investment Fund (PTIF) which is an external investment pool administered by the Utah State Treasurer. The PTIF is available for investment of funds administered by any Utah public treasurer. There is no required participation and no minimum balance or minimum/maximum transaction requirements.

The PTIF is not registered with the SEC as an investment company. The PTIF is authorized and regulated by the Utah Money Management Act. The Act establishes the Money Management Council which oversees the activities of the State Treasurer and the PTIF. Deposits in the PTIF are not insured or otherwise guaranteed by the State of Utah and participants share proportionally in any realized gains or losses on investments.

The PTIF allocates income and issues statements on a monthly basis. The PTIF operates and reports to participants on an amortized cost basis. The participant's balance is their investment deposited in the PTIF plus their share of income, gains, and losses net of administration fees which is allocated to each participant on the ratio of each participant's share to the total funds in the PTIF. The participant's monthly investment amount is based upon their average daily balance. Twice a year at June 30 and December 31, the investments are valued at fair value for participants (public entities having those year ends) to enable them to adjust their investments in this pool at fair value. The Bank of New York and the State of Utah separately determine each security's fair value in accordance with GASB Statement No. 31 (i.e. for almost all pool investments the quoted market price as of June 30, 2006) and then compare those values to determine an agreed upon fair value of the securities.

As of June 30, 2006, the City had the following investments and maturities:

		Inv	estment Matu	urities (in Year	s)
Investment Type	Fair Value	Less than 1	1-5	6-10	More than 10
State of Utah PTIF	\$ 62,452,634	\$ 62,452,634			

#### **Credit Risk**

Investment credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The City's policy for reducing its exposure to credit risk is to comply with the Money Management Act. The Act details authorized investments which are high-grade securities and, therefore, subject to very little credit risk except in the most unusual and unforseen circumstances.

As of June 30, 2006, the City had the following investments and quality ratings:

	_	·	Quality	Ratings					
Investment Type	Fair Value	AAA	AA	Α.	Unrated				
State of Utah PTIF	\$ 62,452,634				\$ 62,452,634				

#### Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The City's policy for managing its exposure to fair value loss arising from increasing interest rates is to comply with the Money Management Act. The Act requires that the remaining term to maturity of investments may not exceed the period of availability of the funds to be invested. The Act further limits the remaining term to maturity of all investments in commercial paper, bankers' acceptances, fixed rate negotiable deposits, and fixed rate corporate obligations 270-365 days or less. In addition, variable rate negotiable deposits and variable rate securities may not have a remaining term to final maturity exceeding 2 years.

As of June 30, 2006, the City had no investments requiring risk disclosure.

#### Note 6 - Restricted Assets

General Fund activity in unexpended State Road funds, during fiscal year 2006, that are required by the Utah State law to be restricted for road construction and maintenance, are summarized as follows:

State Road Allotment	\$	<b>3,475,5</b> 48
Expenditures: Highway Maintenance	-	(3,475,548)
Unexpended State Road Allotment	\$	-0-

#### **Debt Service Fund**

Pursuant to Utah State law and the bond indentures of the Auto Mall Special Improvement District Special Assessment Bonds, the City has created a Special Improvement Guarantee Fund. The assets of the Special Improvement Guarantee Fund are restricted for payment of maturing special improvement bonds and interest accruing thereon of \$196,000. As of June 30, 2006, the amount held of \$196,000 was in compliance with funding requirements.

Pursuant to Utah State law and the bond indentures of the City Center Special Assessment Bonds, the City has created a Special Improvement District Fund. The assets of the Special Improvement District Fund are restricted for payment of maturing special improvement bonds and interest accruing thereon of \$440,900. As of June 30, 2006, the amount held of \$440,900 was in compliance with funding requirements.

Pursuant to Utah State law and the bond indentures of the South Towne Ridge Special Assessment Bonds, the City has created a Special Improvement District Fund. The assets of the Special Improvement District Fund are restricted for payment of maturing special improvement bonds and interest accruing thereon of \$76,200. As of June 30, 2006, the amount held of \$76,200 was in compliance with funding requirements.

Pursuant to the 2000 Motor Fuel Excise Tax Revenue Bonding Agreement, the City is required to have a debt service reserve of \$707,500. As of June 30, 2006, the City was in compliance with funding requirements with reserves in the General Purpose Debt Service Fund.

# Other Governmental Funds

Restricted assets represent unexpended receipts which are restricted for use on future capital projects. The changes in restricted balances during fiscal year 2006 are summarized as follows:

		Sapita descri				
	Road Funds	Park & Trail Fees	Grants & Court Surcharge	Land Purchase/ Other	Total	Debt Service Funds

# **Business-Type Fund**

There are no restricted assets in the business-type funds.

#### Note 7 - Receivables

Receivables in governmental activities consist of \$11,454,543 in taxes, \$5,166,000 in special assessments, \$541,728 in billing receivables, and \$58,143 in other receivables. Business-type activities receivables are comprised of \$3,357,483 in billing receivables, \$342,118 in taxes receivable, and other receivables of \$5,444. The City expects to collect all of these receivables during fiscal year 2007.

### Note 8 - Due From/To Other Funds

Short term interfund loans at June 30, 2006 are summarized as follows:

Fund	Due Fro	m Other Funds-	Due to	Other Funds
Governmental Funds:				
Redevelopment Agency - South Towne	\$	177,566		
Debt Service - Innkeeper			\$	174,380
CDBG				3,186
Total	\$	177,566	\$	177,566

### Note 9 - Joint Venture

As of June 30, 2006, the City has a 33.20 percent ownership in Trans-Jordan Cities (the Association). The Association was organized in 1968 as a joint enterprise fund of the cities of Midvale, West Jordan, Murray, and Sandy, Utah. In 1997 the Association was joined by the City of South Jordan, and the Cities of Draper and Riverton joined in 1998. The primary purpose of the Association is the operation, maintenance, and control of a refuse dumping site situated east of Bingham Canyon in Salt Lake County. The percentage interest in operations for each of the entities is as follows:

Sandy City	33.20%
West Jordan City	26.15
Murray City	9.32
Midvale City	5.92
South Jordan	10.25
Draper	<b>7</b> .25
Riverton	<u>7.91</u>
Total	<u>100.00</u> %

The Association is governed by its own Board of Directors. Under the Organization Agreement, the board is composed of the Mayors, or their appointed representatives, of the seven participating cities. The Board of Directors appoints the management and staff of the Association and approves all financial matters such as the operating budget and usage fees.

The following is a summary of audited financial information of the Association for the fiscal year ended June 30, 2006:

Assets:	
Current Assets	\$ 10,116,150
Property, Plant and Equipment - Net	5,611,733
Non Current Assets	3,739,865
Total Assets	<u>\$ 19,467,748</u>
Liabilities:	
Current Liabilities	\$ 365,859
Noncurrent Liabilities	<u>3,842,424</u>
Total Liabilities	<u>\$ 4,208,283</u>
Net Assets:	
Invested in Capital Assets,	
Net of Related Debt	\$ 5,611,733
Unrestricted	<u>9,647,732</u>
Total Net Assets	<u>\$ 15,259,465</u>
Income Statement:	
Operating Revenue	\$ 5,086,254
Operating Expenses	<u>5,940,255</u>
Operating Loss	(854,001)
Non-Operating Income	614,214
Non-Operating Expenses	<u>35,869</u>
Net Income (Loss)	<u>\$ (275,656)</u>

The City paid \$602,431 to the Association for landfill costs during fiscal year 2006. Complete financial statements for the Association may be obtained at the following address:

Trans Jordan City Landfill 10873 South 7200 West South Jordan, Utah 84095-0610

# Note 10 - Investment in Water Stock, Rights, and Capacity

The Water Fund had the following investments in water stock, rights, and capacity at June 30, 2006:

Water Stock:	<u>Shares</u>	Cost
Bell Canyon Irrigation Company	1,863	\$ 442,607
Cahoon and Maxfield Irrigation Company	50	1,856
Draper Irrigation Company	639	512,100
East Jordan Irrigation Company	246	24,590
Granite Water Company	10	3,743
Last Chance Ditch Company	504	26,437
Little Cottonwood Water Company	11,358	113,580
Nickle Irrigation Company	1,025	108,395
Sandy Canal Company	227	124,854
Sandy Irrigation Company	1,749	870,293
South Despain Ditch Company	33	20,041
Tanner Ditch Company	2	450
Union East Jordan Irrigation Company	904	48,148
Welby Jacob Water Users Company	9	9,050
Provo Reservoir Water Users Company	52	780,179
Provo Bench Canal and Irrigation Company	1	27,975
North Jordan Irrigation Company	84	<u>199,500</u>
Total Water Stock		3,313,798
Water Rights - Thompson and Lym Ditches		38,581
Water Capacity		26,023,020
Total Water Stock, Rights and Capacity		<u>\$29,375,399</u>

# Note 11 - Capital Assets

Storm Water Utility		656,268
Capital assets held by the government's internal service funds are		
charged to the various functions based on their usage of the assets		1,919,589
Total Depreciation Expense - Governmental Activities	\$_	4,478,514
Business-Type Activities		
Alta Canyon Sports Center	\$	132,859
Water		3,016,797
Golf Course		21,865
Total Depreciation Expense - Business-Type Activities	\$	3,171,521

# Note 12 - Long-term Obligations

Revenue bonds and other long-term liabilities directly related to and intended to be paid from proprietary funds are included in the accounts of such funds. All other long-term obligations of the City are accounted for in the Governmental Activities of the government-wide statements. The following table summarizes changes in long-term obligations for the year ended June 30, 2006:

	Rate (%)	Amount of Original Issue (bonds only)	Balance June 30, 2005	Additions	Retirements	Balance June 30, 2006	Due Within One Year

#### **General Obligation Bonds**

On December 15, 1995, the City issued \$6,250,000 in General Obligation Refunding Bonds (Series 1995) with a maturity date of December 15, 2011 at interest rates of 3.60 to 5.50 percent. The bonds were issued for the purpose of advance refunding of the City's \$8,065,000 Public Building and Refunding Bonds (Series 1991) which were originally issued for (i) the construction of a City hall/police station; (ii) the refunding of certain certificates of participation; and (iii) the refunding of certain general obligation bonds. The bonds maturing on or prior to December 15, 2005, are not subject to call and redemption prior to maturity, while those maturing on or after December 15, 2006, are subject to redemption at the option of the City on December 15, 2005, and on any date thereafter. The redemption price is equal to 100% of the principal amount plus accrued interest. These bonds were defeased with the 2005 General Obligation Refunding Bonds (see below).

On September 27, 2005, the City issued \$3,650,000 in General Obligation Refunding Bonds (Series 2005) with a maturity date of December 15, 2011 at an average interest rate of 3.865 percent to advance refund \$3,670,000 of the outstanding 1995 Series bonds with interest rates of 3.60 to 5.50 percent. The net proceeds of \$3,738,640 (after a City transfer of \$63,000, an issuance premium of \$90,797, and \$65,157 in miscellaneous issuance costs) were used to purchase U.S. Treasury Securities. Those securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the 1995 Series bonds. As a result, the 1995 Series bonds are considered to be defeased and the liability for those bonds has been removed from the financial statements. The 2005 General Obligation Refunding Bonds are not subject to redemption prior to maturity.

Although the Series 2005 advance refunding resulted in the recognition of an accounting loss of \$(6,564) for the year ended June 30, 2006, the City in effect reduced its aggregate debt service payments by \$215,029 over the next seven years and obtained an economic gain (difference between the present values of the old and new debt service payments) of \$193,318.

# Special Improvement Bonds with Governmental Commitment

Principal and interest on special improvement bonds are paid from special assessment collections. The primary source of repayment of the special assessment debt is assessments against the benefitted property owners. This debt is secured by liens on assessed property and is also backed by the full faith and credit of the City as additional security (see debt service reserve requirement in Note 5).

A separate fund, the Special Improvement Debt Service Fund, has been established to contain the receipts derived by the City from the special assessments levied upon the property included in the special improvement districts together with interest on the assessments and, if necessary, additional funds transferred by the City to the debt service fund. Under the terms of the special improvement bond resolutions and state law, the City has agreed to maintain a special improvement guarantee account for the benefit of the bondholders.

On September 1, 2002, the City issued \$1,960,000 in Special Assessment Refunding Bonds (Auto Mall) at rates from 2.73 to 4.83 percent with a final maturity date of September 1, 2012. This bond replaced the 1993 Special Assessment bond. The Special Improvement District No. 90-1 (Auto Mall) was originally established by the City for the purpose of making improvements within the District. Assessments have been levied against the property included within the district to finance the cost of the improvements, all in conformance with and subject to the requirements of the Improvement District Act.

On December 19, 2002, the City issued \$4,409,000 in Special Assessment Bonds at rates from 2.65 to 4.75 percent with a final maturity date of December 15, 2012. The Special Improvement District No. 2001-1 (Parking Structure) was established by the City for the purpose of acquisition of land and rights of way and construction of parking and plaza improvements.

On December 19, 2002, the City issued \$762,000 in Special Assessment Bonds at rates from 2.80 to 4.80 percent with a final maturity date of December 15, 2012. The Special Improvement District No. 2000-1 (South Towne Ridge Road) was established by the City to acquire land and rights of way, to construct roads, and to install water, sewer, and storm drain improvements.

#### **Motor Fuel Bonds**

On March 7, 2000, the City issued \$7,075,000 in Motor Fuel Excise Tax Revenue Bonds. The Series 2000 bonds bear interest at 4.25 to 5.25 percent and have a final maturity of January 15, 2010. The bonds were issued to finance the construction or repair of streets located within the City boundaries. The City has pledged motor and special fuel excise taxes (Class C road funds) as collateral for these revenue bonds. The Series 2000 bonds are not callable for redemption prior to maturity.

#### **Water Bonds**

On April 22, 2004, the Water Utility issued \$9,965,000 in Water Revenue and Refunding Bonds (Series 2004) at rates from 2.50 to 5.00 percent with a final maturity date of November 15, 2025. The bonds were issued for the purpose of (i) refunding all of the City's outstanding Water Revenue and Refunding Bonds, Series 1993A, (ii) financing costs of certain improvements to the City's water system and (iii) paying costs of issuance of the Series 2004 Bonds.

The bond resolution approved in conjunction with the issuance of the Series 2004 bonds provides, among other things, that certain funds be established and that certain accounting procedures be followed. Under the terms of the resolution, the City will establish and collect rates and charges (including impact fees and connection fees) for System services which are reasonably expected to produce net revenues equal to 110 percent of the aggregate annual debt service requirement for such year.

#### Municipal Building Authority (MBA) Bonds

On March 6, 2001, the Municipal Building Authority issued \$600,000 in Lease Revenue Bonds (Series 2001A) at an interest rate of 4.71 percent with a final maturity date on March 1, 2006. The bonds were issued for the purpose of constructing a fire station.

#### Sales Tax Revenue Bonds

Sales Tax Revenue Bonds are special limited obligations of the City that are backed by the sales and use taxes levied by the City under the Local Sales and Use Tax Act.

On February 15, 2002, the City issued \$10,180,000 in Sales Tax Revenue Bonds (Series 2002) at rates from 3.00 to 5.25 percent with a final maturity date of September 15, 2016. The bonds were issued to finance the costs associated with acquiring, constructing, and equipping certain storm drain improvements and paying the costs of issuing the bonds. The bonds maturing on or prior to September 15, 2011 are not subject to redemption prior to maturity, while those maturing on or after September 15, 2012 are subject to redemption at the election of the City on March 15, 2012 and on any date thereafter. The redemption price is equal to 100 percent of the principal amount plus accrued interest.

On July 1, 2002, the City issued \$4,550,000 in Sales Tax Revenue Bonds (Series 2002B) at rates from 3.00 to 4.50 percent with a final maturity date of September 15, 2023. The bonds were issued to finance costs associated with acquiring, constructing, and equipping a golf course (River Oaks) and park improvements, and paying the costs of issuing the bonds. The bonds maturing on or prior to September 15, 2012 are not subject to redemption prior to maturity, while those maturing on or after September 15, 2012 are subject to redemption

at the election of the City on September 15, 2012 and on any date thereafter. The redemption price is equal to 100 percent of the principal amount plus accrued interest.

On August 15, 2003, the City issued \$7,225,000 in Sales Tax Revenue Bonds (Series 2003) at rates from 1.75 to 4.60 percent with a final maturity date of September 15, 2023. The bonds were issued to finance the costs associated with (i) the acquisition of a justice court building, (ii) the refunding of the 1996 Motor Fuel Excise Tax Revenue bonds and the 1994B Lease Revenue bonds and (iii) paying the costs of issuing the bonds. The bonds maturing on or before September 15, 2013, are not subject to optional redemption prior to maturity, while those maturing on or after September 15, 2014 are subject to redemption at the election of the City. The redemption price is equal to 100 percent of the principal amount plus accrued interest.

On November 1, 2004, the City issued \$16,520,000 in Sales Tax and Refunding Bonds (Series 2004) at rates from 3.0 percent to 5.0 percent with a final maturity date of June 15, 2020. The bonds were issued to (i) refund the 1998C and 1999 Municipal Building Authority Lease Revenue Bonds, (ii) finance the costs associated with the acquisition, construction and equipping of road improvements, park improvements and other City-owned capital improvements and (iii) pay costs associated with the issuance of the 2004 Bonds. The 2004 bonds maturing on or after June 15, 2014 are not subject to optional redemption prior to maturity. The 2004 bonds maturing on or after June 15, 2015 are subject to redemption at the option of the City on June 15, 2014, and on any date thereafter prior to maturity at a redemption price equal to 100 percent of the principal amount of the 2004 bonds to be redeemed, plus accrued interest thereon on the redemption date.

# **Notes Payable**

On June 6, 1996, the City issued a \$2,515,000 note, guaranteed by the U.S. Department of Housing and Urban Development (HUD), for the creation of a Senior Citizen's Center. Interest on the note payable is variable, based upon LIBOR plus 0.2 percent. For the purpose of estimating debt service requirements, interest rates between 5.87 and 7.03 percent have been derived. The date of maturity on the note payable is August 1, 2015.

# **Compensated Absences**

It is the City's policy to permit employees to accumulate earned vacation benefits. All vacation pay is accrued when incurred in the government-wide funds financial statements. The liability for these amounts is funded in the Payroll Management Fund, an internal service fund, for proprietary funds and governmental funds if they have matured.

#### **Capital Leases**

On February 14, 2003, the City entered into a lease agreement as lessee for financing the acquisition of previously purchased golf course equipment at an interest rate of 2.7 percent. A down payment of \$86,000 was

required at the inception of the lease. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of its future minimum lease payments as of the inception date. The assets acquired through capital leases are as follows:

		ve <b>rn</b> mental <u>Activities</u>
Asset:		
Machinery and equipment	\$	423,058
Less: Accumulated depreciation	_	(166,762)
Total	\$	256,296

The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2006 were as follows:

	Gov	Governmental			
Year Ending June 30	<u>Activities</u>				
2007	\$	92,236			
Total minimum lease payments		92,236			
Less: amount representing interest		(2,424)			
Present value of minimum lease payments	\$	89,812			

## **Contracts Payable**

During fiscal year 2005, the City acquired preferential water rights for water produced from the Ontario Drain Tunnel through MWDSLS. MWDSLS issued \$81,750,000 in Series 2005 A & B Water Revenue Bonds bearing interest rates from 3.0 percent to 5.0 percent. The City will pay 16.92 percent of this debt to MWDSLS over 27 years (the life of the debt).

During fiscal year 2006, the City began paying MWDSLS for property purchased by MWDSLS on the City's behalf. This land will be used for the future 2000 East corridor. The City will pay a total of \$2,516,267 over five equal payments, along with interest calculated at 5 percent per year. Additional information concerning committed payments to MWDSLS can be found in note 18 - Commitments and Contingencies.

#### **Defeasance of Debt**

During fiscal year 2004, the City issued \$7,225,000 in Sales Tax Revenue and Refunding Bonds. \$3,160,000 of the proceeds were used to advance refund \$1,080,000 of the outstanding 1994B Lease Revenue Bonds and \$3,410,000 of the 1996 Motor Fuel Excise Tax Revenue Bonds. At June 30, 2006, the balance of bonds which were considered extinguished was \$325,000.

During fiscal year 2004, the City issued \$9,965,000 in Water Revenue and Refunding Bonds. \$3,890,000 of the proceeds were used to advance refund \$5,975,000 of the outstanding 1993A Water Revenue Refunding Bonds. As of June 30, 2006, the balance of bonds which were considered extinguished was \$3,155,000.

During fiscal year 2005, the City issued \$16,520,000 in Sales Tax Revenue and Refunding Bonds. \$14,990,000 of the proceeds were placed in an irrevocable trust to advance refund \$7,150,000 of the 1998C

MBA Lease Revenue Bonds and \$8,545,000 of the 1999 MBA Lease Revenue Bonds. At June 30, 2006, the balance of bonds which were considered extinguished was \$14,500,000.

# Note 13 - Industrial Development Revenue Bonds

The City has issued industrial development revenue bonds for the benefit of various developers to aid in building a commercial base within Sandy City limits. Principal and interest payments of such industrial development revenue bonds are to be made entirely by the various developers. The City will not become liable for these bonds even if developers can no longer make the payments. Consequently, the following bonds and their related interest are not shown as a liability in the accompanying financial statements:

Description of Industrial Revenue Bonds Issued	Year Issued	Maturity Date	Original Amount	Total Rétired	Outstanding at 6/30/06
Boyer 106th S. Associates Project	1985	12/01/06	\$ 4,000,000	\$ 3,165,000	\$ 835,000
DREE Project	1985	11/15/10	8,770,000	4,845,000	3,925,000
South Towne Hotel Associates Project	1985	11/20/10	9,350,000	5,400,000	3,950,000
H. Shirl Wright Project	1986	12/15/16	9,000,000	4,100,000	4,900,000
Total Industrial Revenue Bonds Issued for Developers			\$ 31,120,000	\$17,510,000	\$13,610 <b>,00</b> 0

# Note 14 - Pension Plans

# Plan Description

The State of Utah requires all agencies with public employees to contribute to Utah State Retirement Systems (USRS). Based upon the type of public employee and their retirement elections, the City contributes to various plans within the USRS: the Local Governmental Contributory Retirement System, the Local Governmental Non-Contributory Retirement System, the Public Safety Retirement System for employers without Social Security coverage, the Firefighters Retirement System which is for employers without Social Security coverage, all of which are cost-sharing multiple-employer defined benefit pension plans administered by the USRS. USRS provide retirement benefits, annual cost of living adjustments, death benefits, and refunds to plan members and beneficiaries in accordance with retirement statutes established and amended by the State Legislature.

The Systems are established and governed by the respective sections of Chapter 49 of the Utah Code Annotated 1953 as amended which also establishes the Utah State Retirement Office. Chapter 49 places the Systems, the Office and related plan and programs under the direction of the Utah State Retirement Board whose members are appointed by the Governor. The Systems issue a publicly available financial report that

includes financial statements and required supplementary information for the systems and plans. A copy of the report may be obtained by writing to the Utah Retirement Systems, 540 East 200 South, Salt Lake City, Utah 84102 or by calling 1-800-753-7361.

# **Funding Policy**

Plan members in the Local Government Contributory Retirement System are required to contribute based upon participating employees' annual salaries. The contribution rates in effect from July 1, 2005 through June 30, 2006 are as follows:

	Employee Paid	Employee: Contributions Paid by City (100% Vested)	City's Matching Contributions	Total Contribution
Local Government Contributory Retirement System	N/A	6.00 %	7.08 %	13.08 %
Local Government Non-Contributory Retirement System	N/A	N/A	11.09	11.09
Public Safety Retirement System for employers Without Social Security coverage	4.90 %	5.60	12.47	22.97
Firefighters' Retirement System for employers Without Social Security coverage	N/A	7.83	N/A	7.83

The contribution rates are the actuarially determined rates. The contribution requirements of the Systems are authorized by statute and specified by the Board.

#### **Trend Information**

The following contributions have been made in the past three years and were equal to the required contributions for each fiscal year ending on June 30th:

	2004		2005		2006	
Local Governmental Contributory Retirement System	\$	115,531	\$	117,070	\$	122,170
Local Governmental Non-Contributory Retirement System		92 <b>9,3</b> 19		1,114,612		1,210,193
Public Safety Retirement System for employers without Social Security coverage		945,469		1,101,096		1,114,075
Firefighters Retirement System for employers without Social Security coverage		267,492		273,708		285,081
Total	\$	2,257,811	\$	2,606,486	\$	2,731,519

# Note 15 - Deferred Compensation Plans

The City offers its employees a 457 deferred compensation plan and 401(K) defined contribution tax-sheltered annuity plan. Both plans are provided for within the Internal Revenue Code. The plans, assets, and associated liabilities are administered by external agencies: ICMA Retirement Corporation and Utah State Retirement Systems (USRS). The plans, available to all City employees, permit employees to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency. All ownership and associated interest of the plan is held solely for the benefit of the employees. As a result, the City does not carry the assets or associated liabilities in the City's financial statements.

The City contributes to a 401(K) plan for and on behalf of its public employees, elected and appointed officials, City Council members, temporary, and seasonal employees. The City Council authorizes a percentage based upon an employees base wage to be contributed into deferred compensation plans: 17.95% for full-time employees, 8.05% for council members, and 7.50% for temporary and seasonal employees. As noted previously, the USRS deferred compensation rate is actuarially determined by the State depending upon the employee classification. The required contribution rates to the 401(K) plan equals the City Council authorized amount less the USRS mandated rate and are as follows: Public Employees covered under the Non-Contributory State Retirement 6.86%, Public Employees covered under the Contributory State Retirement 4.87%, Elected/Appointed Officials 17.95%, Firefighters 10.12%, and City Council members 8.05%. Because the deferred compensation rate for the Public Safety Retirement System exceeds 17.95%, the City does not pay into the 401(k) plan for police officers. The required contribution rate to the 457 plan on behalf of temporary and seasonal employees is 7.5%. The City's total contributions were \$1,680,591 which is 7.1% of the \$23,666,060 in total payroll for covered employees for the year ended June 30, 2006. The City's and employee's contributions for each employee (and interest allocated to the employee's account) are fully vested in the employee's account from the date of employment. In addition, all employees are eligible to participate in an elective deferral plan which permits them

to defer a portion of their salary until future years. The total contributions made by the employees were \$1,075,357 for the year ended June 30, 2006. At June 30, 2006 the City has made all payments to the plan administrator to satisfy this funding requirement.

### **Note 16 - Post Employment Benefits**

The City allows terminated or retired employees to continue their health insurance benefits for a period of 18 months after the employee's termination or retirement date. The City will pay up to two months of these premiums for an employee and their plan dependents in the event that (1) a current full or part time employee dies, or (2) a full or part time employee is approved for disability due to their diagnosis as terminally ill. All other terminated or retired employees are required to pay the full cost of such extended health insurance coverage. As of June 30, 2006, 6 employees had elected to participate in this post-employment benefit program. The administrative costs to the City of such benefits were not significant for the year ended June 30, 2006.

# Note 17 - Vacation and Sick Leave

The City permits employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for unpaid accumulated sick leave since the government does not have a policy to pay any amounts when employees separate from service. All vacation pay is accrued when incurred in the government-wide and proprietary financial statements.

Employees can accrue vacation days at various rates depending upon length of service. There are no requirements that vacation leave be taken, but the maximum permissible accumulation is 320 hours except for firefighters who can accumulate 480 hours. At termination, employees are paid for any unused accumulated vacation leave.

The Payroll Management Fund, an internal service fund, contains the City's entire compensated absences liability except for the long-term liability portion of the General Fund. The long-term liability portion in the General Fund is considered to be any amount in excess of what an employee can accrue in one year. As of June 30, 2006, this unfunded amount is \$923,270.

Employees earn sick leave at the rate of 12 days per year. Unused sick leave may be carried forward to subsequent years until a maximum of 480 hours is accumulated.

#### Note 18 - Commitments and Contingencies

The City is a defendant in various claims and suits arising from the ordinary course of business. The City's legal counsel believes that it has meritorious defenses and that any liability resulting from these matters would not be material. Accordingly, no provision for loss related to litigation has been made in the accompanying financial statements.

Commitments for major construction and capital improvements projects totaled \$4,711,837 at June 30, 2006.

#### SANDY CITY NOTES TO FINANCIAL STATEMENTS JUNE 30, 2006

The Sandy City Redevelopment Agency (RDA), a governmental-type fund, has two outstanding commitments for payment of tax increment to Jordan School District and the Salt Lake County Sewer District. The following is a schedule of estimated future payments to both of these entities as of June 30, 2006. Estimates are based on 2006 property tax rates and values:

	RDA				
	Fund				
2007	\$	86,106			
2008		86,106			
2009		<b>86,10</b> 6			
2010		<b>86,</b> 106			
2011		86,106			
2012-2016		3 <b>99</b> ,960			
2017-2021		129,915			
Total	\$	9 <b>60,</b> 405			

In 1999, the City agreed to pay the Macerich Company \$230,000 per year for ten years as a tax increment refund for the Dillard's department store at South Towne Center. As of June 30, 2006, two payments remain totaling \$460,000. These payments are made out of the RDA fund.

The Public Utilities department (an enterprise fund) currently has a long-term commitment payable to MWDSLS for various capital improvements. The following is a schedule of future payments due to MWDSLS for capital improvements as of June 30, 2006:

	Water					
	Fund					
2007	4,210,322					
2008	4,210,322					
2009	4,210,322					
2010	4,210,322					
2011-2015	21, <b>051</b> ,610					
2016-2020	21,051,610					
2021-2025	21,051,610					
2026-2030	21,051,610					
2031-2035	16, <b>841</b> ,629					
Total	\$ 117,889,357					

The Public Works department has a long-term commitment payable to MWDSLS for land purchased on behalf of the City for the future 2000 East corridor. The following is a schedule of future principal payments due to MWDSLS for these land purchases:

	Capital					
	 Projects_					
2007	 503,253					
2008	503,253					
2009	503,254					
2010	503,254					
Total	\$ 2,013,014					

#### SANDY CITY NOTES TO FINANCIAL STATEMENTS JUNE 30, 2006

In the normal course of operations, the City receives grant funds from various Federal agencies. The grant operations are subject to audit by agents of the granting authority, the purpose of which is to ensure compliance with conditions precedent to the granting of funds. Any liability for reimbursement that may arise as the result of audits of grant funds is not believed to be material.

#### Note 19 - Transfers In/Out

During the course of normal operations, the City has transfers between the various funds. The principal purposes of the City's interfund transfers are debt service and capital projects. Transfers in and out for the year ended June 30, 2006 are summarized as follows:

	Transfers Out From:										
		General	Re	edevelopment Agency		ommunity velopment		orm Water Utilities	Capital Projects	То	tal Transfers In
Transfers in to the following funds:											
General	\$	-0-	\$	40,000	\$	-0-	\$	-0-	\$ -0-	\$	40,000

#### Note 21 - Risk Management

The City is exposed to various risks of loss including torts; workers compensation claims; theft of, damage to or destruction of assets; errors and omissions; and natural disasters. Insurance coverages for these risks were provided by several commercial insurance carriers. The general liability policy has a \$2,000,000 self insured retention with a \$10,000,000 limit per occurrence. Workers compensation claims are covered by the Workers Compensation Fund. The City commercially insures real property and also insures fleet equipment with individual values in excess of \$40,000 and self-insures all other fleet equipment. For the last 3 years, claim settlements have not exceeded insurance coverage.

Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred But Not Reported (IBNR). The liability for claims and judgements is reported in the Insurance & Risk Management Fund and has been expensed in the current period. Changes in the balances of claims liabilities during the past two years are as follows:

ionows.	Year Ended June 30, 2006	Year Ended June 30, 2005
Unpaid Claims, Beginning of Fiscal Year Incurred Claims & Changes in Estimates (Including IBNR's)	\$511,786 281,555	\$ 556,122 104,217
Claims Payments Unpaid Claims, End of Fiscal Year	<u>(131,229)</u> <u>\$ 662,112</u>	<u>(148,553</u> ) <u>\$ 511,786</u>

The City estimates that \$165,000 of the \$662,112 unpaid claims that will be paid in the next fiscal year.

#### Note 22 - Sandy City Redevelopment Agency

For the year ending June 30, 2006 the following activity occurred in the City's Redevelopment Agency: Tax increment collected by the Agency for each project area:

South Towne	<b>\$ 1,483,126</b>
Civic Center South	1,172,638
Civic Center North	1,100,807
South Towne Ridge Road	<u>650,000</u>
	<u>\$ 4,406,571</u>
Tax increment paid to other taxing agencies	\$43,305
Outstanding loans which financed RDA projects	\$11,520,000
Amounts expended for:	
Installation of public utilities or other public improvements	\$1,877,064
Administrative costs	\$306,050

#### Note 23 - Related Party Transactions

During the year ended June 30, 2006, the City made the following payments to MWDSLS, which is a related entity:

- A capital assessment of \$3,859,462 for capital improvements to be conducted by MWDSLS;
- \$863,193 for water rights to the Ontario Drain Tunnel water;
- \$624,715 for the 2000 East Corridor purchase agreement; and
- \$2,844,534 for water purchases.

#### Note 24 - Subsequent Event Disclosure

On July 1, 2006, the City took over management and operations of the Sandy Arts Guild, a 501(c)(3) organization. The Amphitheater will also be accounted for as a 501(c)(3) organization beginning on this date.

On November 13, 2006, the City-owned parking structure was sold. Consideration equaled the outstanding amount of the bond (2002A Parking Facility), which has been extinguished.

Roadway System Condition and Maintenance Modified Approach for Infrastructure June 30, 2006

The condition of the road pavement is measured using the Stantec Pavement Management Application (PMA), which is based on a weighted average of nine distress factors found in pavement surfaces (cracking, raveling, chuck holes, patching, edge cracking, rutting/shoving, bleeding, excessive crown, and distortion). The PMA uses a measurement scale based on a condition index ranging from 0 to 10 for pavement in perfect condition. The condition index is used to classify roads in good or better condition (6.5 - 10), fair condition (4.0 - 6.4), and substandard condition (less than 4.0). The City's policy is to maintain at least 80 percent of its street system at a good or better condition and have no more than 10 percent in a substandard condition. Condition assessments are determined every year.

During fiscal year 2004, the City gathered more detailed information on drive approaches and water ways than had been gathered in fiscal year 2003. This allowed the City to more accurately assess the overall concrete condition for each address within Sandy City. For fiscal year 2003, concrete condition, including drive approach and waterway condition, was estimated based on the number of simple concrete hazards at each address without accounting for the severity of each hazard. Therefore, fiscal year 2003 data produced conditions that were artificially worse than they really were. Conversely, accurate field evaluations were made during fiscal year 2004 to determine not only the number, but the severity, of each concrete hazard. This resulted in a significant decrease in substandard condition percentages in fiscal year 2004 over fiscal year 2003. A corresponding increase in good or better condition percentages also occurred.

#### Condition Rating of the City's Roadway System

## Nonmajor Governmental Funds

Special Revenue Funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

Redevelopment Agency (RDA) - This fund is used to account for the tax increment revenues and the tax increment bond proceeds that are legally restricted for expenditures in the Sandy Redevelopment Agency project area.

Landscape Maintenance - This fund is used to account for the service-type special assessments legally restricted for operation and maintenance of streetscapes.

Community Development Block Grant (CDBG) - This fund is used to account for the revenues received by the City as grantee participant in the Community Development Block Grant program.

Recreation - This fund is used to account for the City's recreation activities.

Community Arts - The City elects to sponsor certain performing arts, programs and special events. This fund is used to account for the revenue and expenditures associated with these events.

Amphitheater - The City arranges for concerts, programs, and special events to be performed within our amphitheater for the enjoyment of our citizens. This fund is used to account for the revenue and expenditures associated with these events.

**Electric Utilities** - This fund is used to account for the operation of the City's electric utility.

Sandy City Donations - This fund was established to account for individual, private, and intergovernmental contributions held in trust by the City.

### **Enterprise Funds**

The **Enterprise Funds** are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the City Council is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges, or where the City Council has decided that periodic determination of net income is appropriate for accountability purposes.

Alta Canyon Sports Center - This fund is used to account for the City's recreational center.

Water - This fund is used to account for the operations of the City's Water Utility.

Waste - This fund is used to account for waste collection services provided by an independent contractor.

Golf - This fund is used to account for the City's golf course.

### **Internal Service Funds**

Internal Service Funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the City on a cost-reimbursement basis.

Fleet - This fund is used to account for the rental of machinery, equipment, vehicles, and their related costs to other departments.

**Information Services** - This fund is used to account for the accumulation and allocation of costs associated with the centralized data processing systems.

Risk Management - This fund is used to account for the accumulation and allocation of costs associated with general liability, worker's compensation and risk management functions.

**Equipment Management** - This fund is used to account for the accumulation and allocation of costs associated with the purchase of equipment for the governmental funds.

Payroll Management - this fund is used to account for the liability associated with the accumulation of employee compensated absences.

# Impact Fees Received and Used in the Operations of Sandy City

(Schedule Required by the State of Utah)

This Page Intentionally Left Blank

# SANDY CITY SCHEDULE OF IMPACT FEES COMPARATIVE SCHEDULES BY IMPACT TYPE, YEAR RECEIVED AND PLANNED USE

Sandy City charges impact fees on all new residential and commercial construction within Sandy City limits for drainage, parks, trails, fire, and police. All new construction requiring City water service is charged a water connection fee. Impact fee revenue collected during the past eight fiscal years is presented in the following table. The capital projects for which the funds are budgeted for the current fiscal year as well as projected expenditures through fiscal year 2010 are presented below.

Impact Fee Revenue by Fiscal Year

										_		
		Water		)rainage		Parks		Trails		Fire		Police

<sup>&</sup>lt;sup>1</sup>Overlapping rates are those of local and county governments that apply to property owners within Sandy City. Not all overlapping rates apply to all Sandy City property owners. The rates for special districts apply only to the proportion of the city's property owners whose property is located within the geographic boundaries of the special district

<sup>&</sup>lt;sup>2</sup>Includes South Salt Lake County Mosquito District, Salt Lake County Water District, Sandy Suburban Improvement District, and Central Utah Water District. Although other special districts apply to only a portion of the City, these districts apply to the majority of property values within the City.

Total Direct and Overlapping Debt			\$ 104,670,276

Source: Zions Bank Public Finance

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the city. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businessess of the city. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt of each overlapping government.

<sup>&</sup>lt;sup>1</sup>Central Utah Water Conservancy District ("CUWCD") outstanding general obligation bonds are limited ad valorem tax bonds. These bonds are the only limited ad valorem tax bonds in the State issued under the Water Conservancy Act. By law CUWCD may levy a tax rate of up to .000400 to pay for operation and maintenance expenses and any outstanding limited ad valorem tax bonds.

<sup>&</sup>lt;sup>2</sup>The State's general obligation debt is not included in overlapping debt because the State levies no property tax for the payment of general obligation bonds.

Source: Sale Lake County Auditor's Office

<sup>&</sup>lt;sup>1</sup>The general obligation bonded debt of the City is limited by the Utah Constitution (Section 14, Paragraph 4) to 8% of the "reasonable fair cash value" of property. Of this percent, a maximum of 4% may be used for general purposes. The remaining 4% and any unused portion of the 4% available for general purposes up to the maximum 8% may be utilized for water and/or sewer purposes.

<sup>&</sup>lt;sup>1</sup>The total reduction in long term debt was \$8,055,000, of which \$7,560,000 represented defeasance of debt from bond refunding and \$495,000 represented a reduction in bond principle.

<sup>&</sup>lt;sup>2</sup>The original bond was refunded with cash flow savings taken in the first and second year of refunding. Sufficient reserves existed to service debt. As such, no assessment was required as of year end. Additionally, two new SIDs were created with a payment date of December 15, 2003.

## REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Mayor and Members of the City Council City of Sandy, Utah

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Sandy, Utah (the City), as of and for the year ended June 30, 2006, and have issued our report thereon dated November 30, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

#### Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

#### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the management, City Council, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

## REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

Honorable Mayor and Members of the City Council City of Sandy, Utah

**Compliance** 

We have audited the compliance of the City of Sandy, Utah (the City), with the types of compliance requirements described in the *U. S. Office of Management and Budget* (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended June 30, 2006. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of the City's management. Our responsibility is to express an opinion on the City's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the City's compliance with those requirements.

In our opinion, the City complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2006.

Internal Control Over Compliance

The management of the City is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the City's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on the internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts, and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

Schedule of Expenditures of Federal Awards

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of and for the year ended June 30, 2006, and have issued our report thereon dated November 30, 2006. Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of the management, City Council, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

- 1. The auditor's report expresses an unqualified opinion on the financial statements.
- 2. No reportable conditions relating to the audit of the financial statements are reported.
- 3. No instances of noncompliance considered to be material to the financial statements were disclosed by the audit.
- 4. No reportable conditions relating to the audit of the major federal award programs are required to be reported.
- 5. The auditor's report on compliance with requirements applicable to major federal award programs expresses an unqualified opinion.
- 6. The audit disclosed no findings that are required to be reported in accordance with OMB Circular A-133.
- 7. The programs tested as major programs include:

U.S. Department of Justice

CFDA number 16.710

U.S. Department of Agriculture

CFDA number 10.901

- 8. The threshold used for distinguishing between Type A and B programs was \$300,000.
- 9. The City did qualify as a low-risk auditee.

#### FINDINGS—FINANCIAL STATEMENTS AUDIT

None

FINDINGS AND QUESTIONED COSTS—MAJOR FEDERAL AWARD PROGRAMS AUDIT

None

#### REPORT ON COMPLIANCE WITH THE STATE OF UTAH LEGAL COMPLIANCE GUIDELINES

Honorable Mayor and Members of the City Council City of Sandy, Utah

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Sandy, Utah (the City), for the year ended June 30, 2006, and have issued our report thereon dated November 30, 2006. As a part of our audit, we have audited the City's compliance with the requirements governing types of services allowed or unallowed; eligibility; matching, level of effort, or earmarking; reporting; and special tests and provisions applicable to each of its major State assistance programs as required by the State of Utah Legal Compliance Audit Guide for the year ended June 30, 2006. The City received the following major State assistance programs from the State of Utah:

• B & C Road Funds (Department of Transportation)

The City also received the following nonmajor grants which are not required to be audited for specific compliance requirements. (However, these programs were subject to testwork as part of the audit of the City's financial statements):

- EMS Contracts/Grants (Department of Health)
- Emergency Management (Department of Public Safety)
- Victims of Crime Assistance (Office of Crime Victim Reparations)
- Justice Court Technology Grant (Administrative Office of the Courts)

Our audit also included testwork on the City's compliance with those general compliance requirements identified in the State of Utah Legal Compliance Audit Guide, including:

- Public Debt
- Cash Management
- Purchasing Requirements
- Budgetary Compliance
- Truth in Taxation and Property Tax Limitations
- Liquor Law Enforcement
- Justice Courts
- B & C Road Funds
- Special Districts
- Other General Issues
- Uniform Building Code Standards
- Impact Fees
- Asset Forfeiture

The management of the City is responsible for the City's compliance with all compliance requirements identified above. Our responsibility is to express an opinion on compliance with those requirements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether material noncompliance with the requirements referred to above occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements. We believe that our audit provides a reasonable basis for our opinion.

The results of our audit procedures disclosed no instances of noncompliance with the requirements referred to above.

In our opinion, the City complied, in all material respects, with the general compliance requirements identified above and the requirements governing types of services allowed or unallowed; eligibility; matching, level of effort, or earmarking; reporting; and special tests and provisions that are applicable to each of its major State assistance programs for the year ended June 30, 2006.
